

CALL FOR MORE AMBITION AHEAD OF THE UN CLIMATE ACTION SUMMIT | 23 SEPTEMBER 2019

ARGENTINA

1. Stop exploiting new **oil and gas** reserves
2. Stop unsustainable **agricultural practices** and associated **deforestation**
3. Shift individual transport modes towards sustainable low-emissions public **transport** and non-motorised mobility

AUSTRALIA

1. Phase out **coal-fired power plants** by 2030 and achieve 100% renewable electricity generation in the 2030s
2. 100% share of sales of new passenger **cars to be zero-emissions** before 2035
3. Decarbonise the **entire system** (demand and supply sectors) by 2050

CHINA

1. Restrict investment in **new coal**
2. Increase **electrical carbon efficiency**
3. Enhance the **NDC** by bringing forward the date for China to peak CO₂ emissions

EUROPEAN UNION

1. Adapt goal of **net-zero greenhouse gas emissions by 2050** at the latest and ratchet up the 2030 target in line with the Paris Agreement 1.5C limit
2. Adopt goal of 100% sales of **emissions free cars** by 2030
3. Moratorium to stop expansion of **gas infrastructure** (pipelines and LNG ports)

FRANCE

1. Scale up renovations to **low-energy building standards**, to reach 500,000 houses per year as soon as possible
2. Ramp up deployment of **renewables** to at least double the rate of energy production per year (including electricity and heat)
3. Review economic incentives to promote **low-carbon vehicles**, to reach 10% market share of new vehicles by 2022 and 35% share by 2030

GERMANY

1. Adopt a **climate change act** with a more ambitious 2030 target than -55%, coal phase-out by 2030 at the latest and other measures
2. Implement a **CO₂ price** of at least 50€ for transport and heating, which compensation to households
3. Introduce mandatory **climate-related risks disclosure** for assets in the finance and real economy no later than December 2020

INDIA

1. Strengthen the 40% **non-fossil fuel target of the NDC**
2. Enhance the **emissions intensity target of the NDC**
3. Adopt a goal of 100% sales of **zero-emission vehicles** by 2035

INDONESIA

1. Decrease **coal power plants** and triple **renewable energy** share in the power sector in 2030
2. Increase **energy efficiency in household appliances and lighting**, which could avoid 26.5 GW of peak demand in 2030
3. Achieve a **permanent forest-clearing moratorium**, potentially protecting at least 660,000 square kilometers of existing primary and peat forests listed in Indonesia's Indicative Moratorium Map

JAPAN

1. Raise 2030 **NDC target**
2. Introduce higher **carbon pricing**
3. Formulate the next strategic energy plan with **coal phase-out**

MEXICO

1. Adopt the target of **net-zero emissions by 2050**
2. Commit to a just transition to **phase out coal by 2030**

SOUTH AFRICA

1. Achieve ambitious **coal transitions** for development
2. Roll out **mass electrified public transit** in urban centres by 2050
3. Establish tighter **building codes** for new residential buildings and shift to more efficient appliances

THE UK

1. Establish a moratorium on current and new permits for **North Sea oil and gas** exploration and extraction
2. Adopt goal of 100% sales of **zero-emission cars** by 2030
3. Ban further **airport expansions**, to curb the rise in aviation emissions

THE US

1. Adopt goal of **net-zero GHG emissions by 2050** at the latest
2. Commit to achieve 100% sales of **emission free cars** by 2030
3. Stop export policy for **liquid natural gas**
